The price-lists has been changed due to an increase in production costs which have not allowed us to maintain the same prices.

We remind you that PP9FON cartridges are used in FilterOne and FIB housings. For completeness of information we remind you that N95FON cartridges and TPL95FON cartridges have not had price increases.

We are sure that you will understand the variation and we take this opportunity to thank you once again for the trust you renew in us every day.

For any kind of clarification and/or additional information you can contact your area sales manager or reach us by phone + 39 0525 -1920100 or e-mail info@everblue.it.
